WORK EXPERIENCE

Data Migration Engineer Capgemini, Bengaluru	05/2023 – Present
- Developed and optimized ETL pipelines using SAP BODS for data migration from legacy to SAP S/4HANA. - Performed source-to-target (S2T) field mapping and post-extraction data analysis to align legacy data with S/4HANA data models and business rules. - Supported greenfield S/4HANA implementation by migrating multi-source legacy data, reducing manual rework and ensuring audit-ready data loads. - Implemented BODS transformations, SQL queries, and data cleansing processes to improve data accuracy. - Automated error handling and logging, validation checks, reducing manual troubleshooting time by 40%. - Collaborated with functional teams to validate mapped data, resolve defects and ensure compliance with business requirements. - Executed post-migration reconciliation and unit testing, validating record counts, key fields, and financial balances to ensure complete and accurate S/4HANA loads. Tools used: BODS, SQL, EXCEL, LSMW, LTMOM, DMC, HANA DB, JIRA	
Data Engineer Capgemini, Bengaluru	12/2022 – 04/2023
- Gained hands-on training in key data analytics tools including Power BI, SQL, SAP BODS, SAP S/4HANA, and Python. - Managed client’s high-volume data by using BODS for data cleaning and shaping, automating repetitive transformation steps. - Designed ETL jobs in SAP BODS to extract sales data from SAP S/4HANA, reducing manual data processing by 60%. - Accomplished successful payment discussions by reviewing data through Excel, resolved disputes efficiently, and optimized invoicing which reduced overdue claims receivable accounts by 35% and 15% increase in on-time payments. Tools used: SAP BODS, SAP S/4 HANA, Power BI Desktop, Python, SQL, Excel	

PROJECT EXPEIRNCE

MIGRATE DATA FROM LEGACY SYSEM TO SAP S/4 HANA Westlake
- Contributed to the greenfield implementation of SAP S/4HANA for Westlake Corporation, integrating data from two legacy systems –JDE (JD Edwards) and AX (Microsoft Dynamics AX). - Led end-to-end data migration activities, ensuring accurate and timely transfer of large-scale datasets across multiple business units. - Phase 1: Managed data migration for MTS objects including Work Center, Functional Location, Equipment, Revision Code ensuring precise mapping and reconciliation. - Phase 2: Contributed to the migration of OTC and FTM modules, ensuring accurate transfer of Pricing Conditions and Accounts Receivable (AR) data to streamline sales and financial operations. - Collaborated closely with the client’s functional and technical stakeholders to define migration requirements and align deliverables with business objectives. - Performed comprehensive data quality checks, validation, and post-migration audits to ensure accuracy, completeness, and system readiness. - Contributed to the overall data governance and documentation process by creating templates, mapping sheets, and issue logs for continuous improvement.

EDUCATION

Bachelor of Technology In Mechanical Engineering	06/2018 – 05/2022
REGENT EDUCATION & RESEARCH FOUNDATION GROUPS OF INSTITUTION	

ACHIEVEMENTS

SHINING STAR AWARD: Received performance award for delivering impactful results and exceeding expectations beyond role experience level. (Dec 2024, June 2025) Link
